# SKILLS

*WHAT I BRING TO THE TABLE*

## Problem Solving

In my industry of Computer Science, creative problem solving is essential to solve errors.

## Team Management

I strive in leading a team through mutual respect and coordination, skills essential in being a good leader.

## Public Speaking

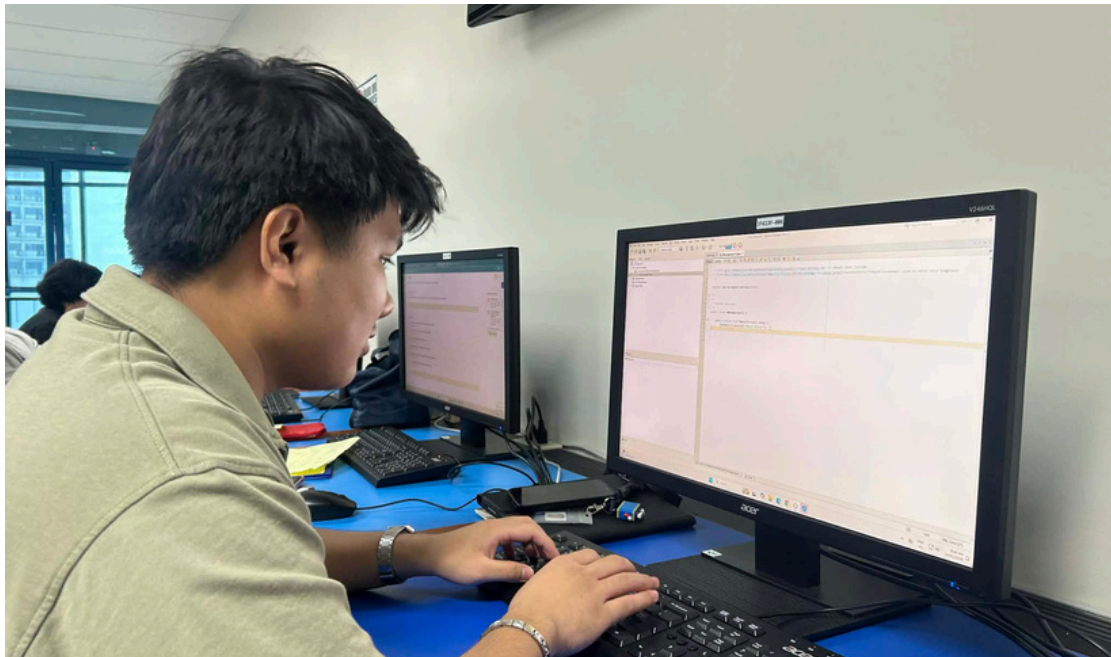

Speaking in front of a crowd is a required skill in the professional field, with this, I always continue my efforts in improving this skill.

---

---

# *MY GOALS IN LIFE*

## **Video Game Developer**

Ever since I was young, I loved playing video games, enrolling in Computer Science made this goal a possibility.

## **Summa Cum Laude**

To continue in working hard in my academics, I made a goal to keep me in track.

## **Travel the World**

My main goal when travelling is to try the many different cuisines around the world.

---

*A QUOTE THAT KEEPS ME GOING*

---

*"Everyone who calls on the name  
of the Lord will be saved"*

---

Romans 10:13
